Modelling Survival Data in Medical Research: Collett

Modelling Survival Data in Medical Research - D. Collett - Google Books. In the course of medical research, data on the time to the occurrence of a part of a patient, are frequently encountered. Such data ular event, such as the death are generically referred to as survival data. However, the event of interest need not necessarily be death, but could, for example, be the end of a period spent in remission from a disease, relief from symptoms, or the recurrence of a particular condition.
